

# Wool Calender Bowl Paper WW18

## Filling Material for LWC & SC

### Description

Wool Calender Bowl Paper with 18% wool / 82% cotton is particularly designed to deliver the performance required by worldwide calender bowl makers, and in particular paper mills making LWC (low weight coated) and SC (super calendered) grades for printing. We supply the paper mixed and twisted, in square sheets, octagons or donuts, precisely cut, ready to use. Typical bowl hardness is 85-86° Shore D. Paper filled calender bowls are preferred by papermakers as they provide optimum gloss and smoothness properties achieved by calendaring. With our expertise in calender bowl paper manufacture we are a worldwide leader.
